Lorraine Beyersdorff
Marathon County Treasurer
500 Forest Street
Wausau, WI 54403

Dear Ms. Beyersdorff:

Per your request, an Environmental Transaction Screen (ETS) has been conducted for properties owned by Herbert Cohan located in the City of Wausau at the following addresses: (1202, 1206, 1210 and 1402 Bissell Street). The transaction screen was conducted by Keith Baine, Environmental Health Sanitarian. The purpose of this investigation was to review past and present land use practices, current operations and conditions, and identify the potential presence of hazardous substances, to evaluate the potential occurrence of soil and/or /groundwater contamination at the site. No soil or groundwater sampling was conducted in conjunction with this assessment.

The subject properties are approximately 90' BY 100' in size. The properties are located in the Bonnie Dunn 1st Addition Lot 7,8,9 Blk 6 and Lot 7 Blk 5 in the City of Wausau, Marathon County, Wisconsin. There were no structures located on any of the properties. The properties are serviced by the City of Wausau's municipal sewer and water department. The surrounding properties are as follows: residential housing to the north, south, and west and baseball diamonds to the east. The property is not located in a floodplain. The properties are zoned as Interchange Residential District.

Based on visual observations made during the walk-through inspection on July 24, 2013 and the records review of the property, the following items have been identified as potential sources of contamination on the property.

Findings:

A) Two contaminated sites were located within the 1 mile minimum search distance. Herbert Cohan Properties located to the northeast were noted and have been closed out by WDNR.

B) There is a natural or man-made drainage ditch that flows through all of these properties. The drainage ditch currently has water in it. Based upon the location of the drainage ditch these lots would basically be non-buildable.

Recommendations:

Potential dangers to the property have been listed above. There would appear to be no major impediments to the County assuming ownership of the property.

The findings and recommendations presented above are professional opinions based solely upon visual observations of the site and vicinity, and our interpretation of the available historical information and documents reviewed. The report is intended for the exclusive use of Marathon County. It should be recognized that this assessment was not intended to be a definitive investigation of contamination at the subject property. Given that analytical testing for contamination was not performed, it is possible that currently unrecognized contamination may exist at the site. Opinions and recommendations presented herein apply to the site conditions existing at the time of our investigation and those reasonably foreseeable.

If you have any questions, please call.

Sincerely,

Keith Baine
