1. DTP/DTAP/DT vaccine for children entering Kindergarten: Your child must have received one dose after the 4th birthday (either 3rd, 4th, or 5th) to be compliant. (Note: a dose 4 days or less before the 4th birthday is also acceptable).

2. DTP/DTaP/DT/Td vaccine for children entering Pre K and grades 1-12: Four doses are required. However, if your child received the 3rd dose after the 4th birthday, further doses are not required. (Note: a dose 4 days or less before 4th birthday is also acceptable).

3. Tdap means adolescent tetanus, diphtheria and acellular pertussis vaccine. If your child received a dose of a tetanus-containing vaccine, such as Td, within 5 years of entering the grade in which Tdap is required, your child is compliant and a dose of Td vaccine is not required.

4. Polio vaccine for students entering grades Kindergarten through 12: Four doses are required, however, if your child received the 3rd dose after the 4th birthday, further doses are not required. (Note: a dose 4 days or less before the 4th birthday is also acceptable.)

5. The first dose of MMR vaccine must have been received on or after the first birthday. (Note: a dose 4 days or less before the 1st birthday is also acceptable.)

6. Var means Varicella (chickenpox) vaccine. A history of chickenpox disease is also acceptable.

7. If your child began the Hib series at 12-14 months of age, only 2 doses are required. If your child received one dose of Hib at 15 months of age or later, no additional doses are required.

8. PCV: 2 doses of Pneumococcal Conjugate required for entrance to day care.
