Overarching goals for Health and Vulnerable Populations

Program Area: Health

Ranked from highest to lowest priority.

1. People practice proactive behaviors, prevention and early intervention to delay or lessen the impacts of aging, disease and chronic physical and mental health conditions.
2. People with life threatening health emergencies are responded to in a timely and effective manner.
3. Systems are in place that rapidly identify and control the spread of infectious disease.
4. People reach their optimal physical, mental and social health potential.

Program Area: Vulnerable Populations

Ranked from highest to lowest priority.

1. People who are at risk are identified early and receive interventions that promote their safety and well being.
2. Marathon County's systems will assure access to basic needs programs on a timely basis.
3. Vulnerable populations live in safe and healthy social, emotional, and physical environments.
4. Families and their support systems provide for the safety and well being of vulnerable populations.
5. Residents know how to access services available for vulnerable populations.
6. Vulnerable populations are provided the opportunity to reach their full social, educational and emotional development.
