The challenges and opportunities of the County which I am most interested are:

Being new to the County Board my biggest challenge will be learning the workings of Marathon County Government. I believe my experience working in a variety of positions within local government from Montana to Wisconsin has provided me the tools to be able learn the ways of the County quickly. I want to work to balance continued investment in education, economic development, and smart long term planning with an eye on conservative spending that will ensure taxes rates are maintained around current levels.

The best thing about Marathon County is:

I think the best thing about Marathon County is the quality of life we get to enjoy in the region. Living in Kronenwetter you can enjoy the larger residential lots and rural living with always being a short 20 minute drive to any shopping or entertainment needs you may desire.

One thing about Marathon County I would change is:

I would like to see the County exploring ways that we can work better with the municipalities within Marathon County. This could happen in a number of ways, from data sharing to combined services, and based on future budgetary needs it's time to get creative.

Something about me that most people might not know or expect is:

I spend the majority of my free time outdoors, whether it be hunting, fishing or working around my house or land. Fall is always my busiest time of year. I have a five-year old German Shorthair Pointer named Champ, who spends a lot of time bird hunting with me each year. As far as fishing goes, I love chasing walleyes all around the State. Beyond the outdoors, I like to stay active in the community. I am currently the Vice President of the Mosinee Area Chamber of Commerce and a Board Member of Marathon County United Way - Emerging Leaders.
